

# HOMESTAY FAMILIES WANTED!

The Global Education Association of Glen Ellyn, IL is seeking  
*home host families for students or professors

Visitors from different countries are interested in learning the culture and improving their English skills. The best way to accomplish these goals is to live with an American with whom they can speak with on a daily basis and experience the American family life first-hand. You will find that the students & professors are very appreciative of the chance to live in your home and extremely interested to hear about life in America.

- Simple meals
- Transportation to/from the CTA or Metra train 4 days a week (if you are not within walking distance of a train)
